Full description

ent is a modular
rk to build and deploy
ed blockchains,
s, and infrastructure in
ed environment

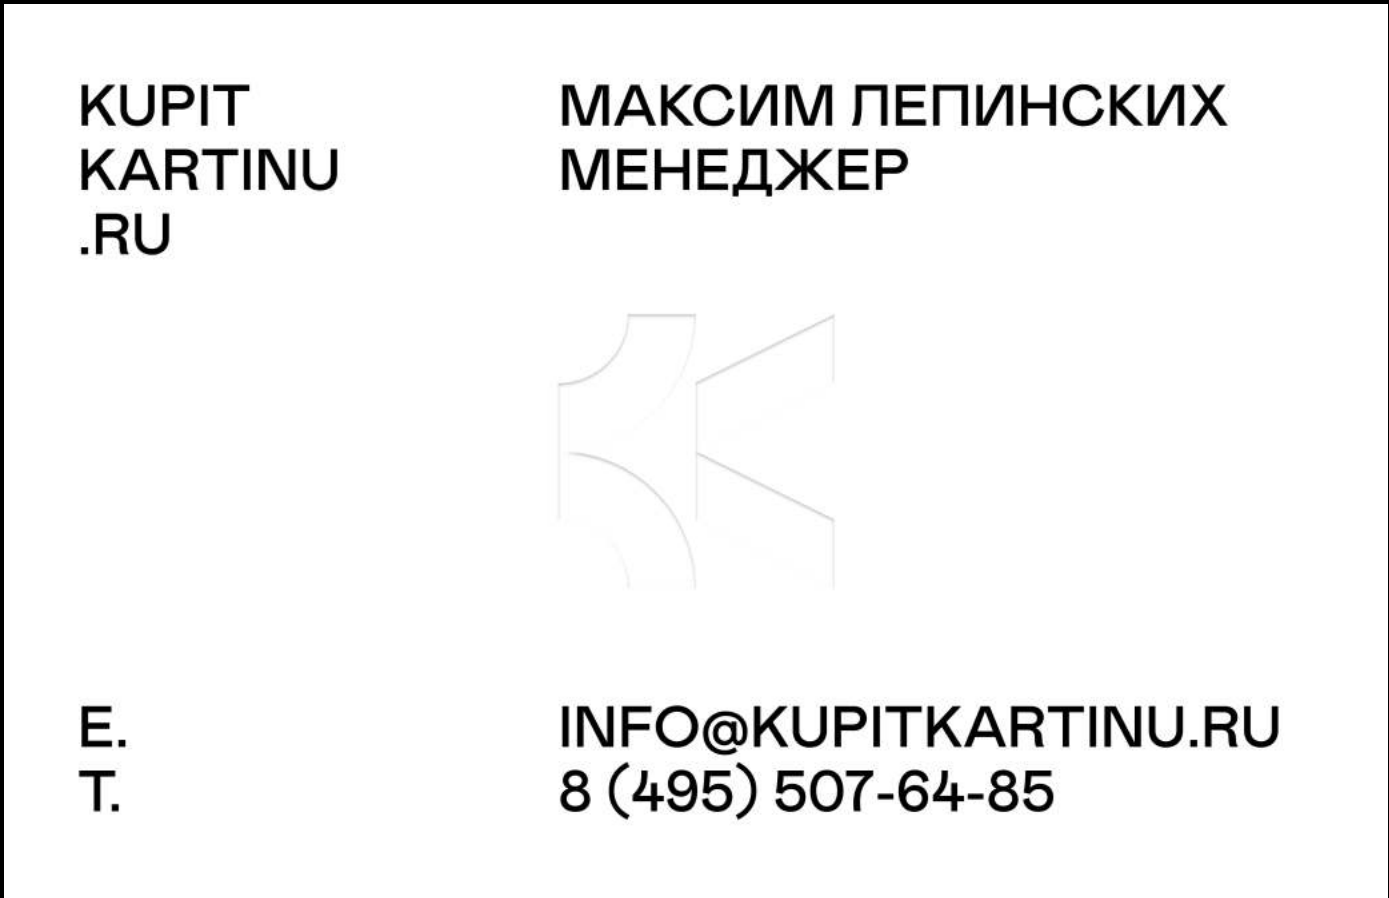

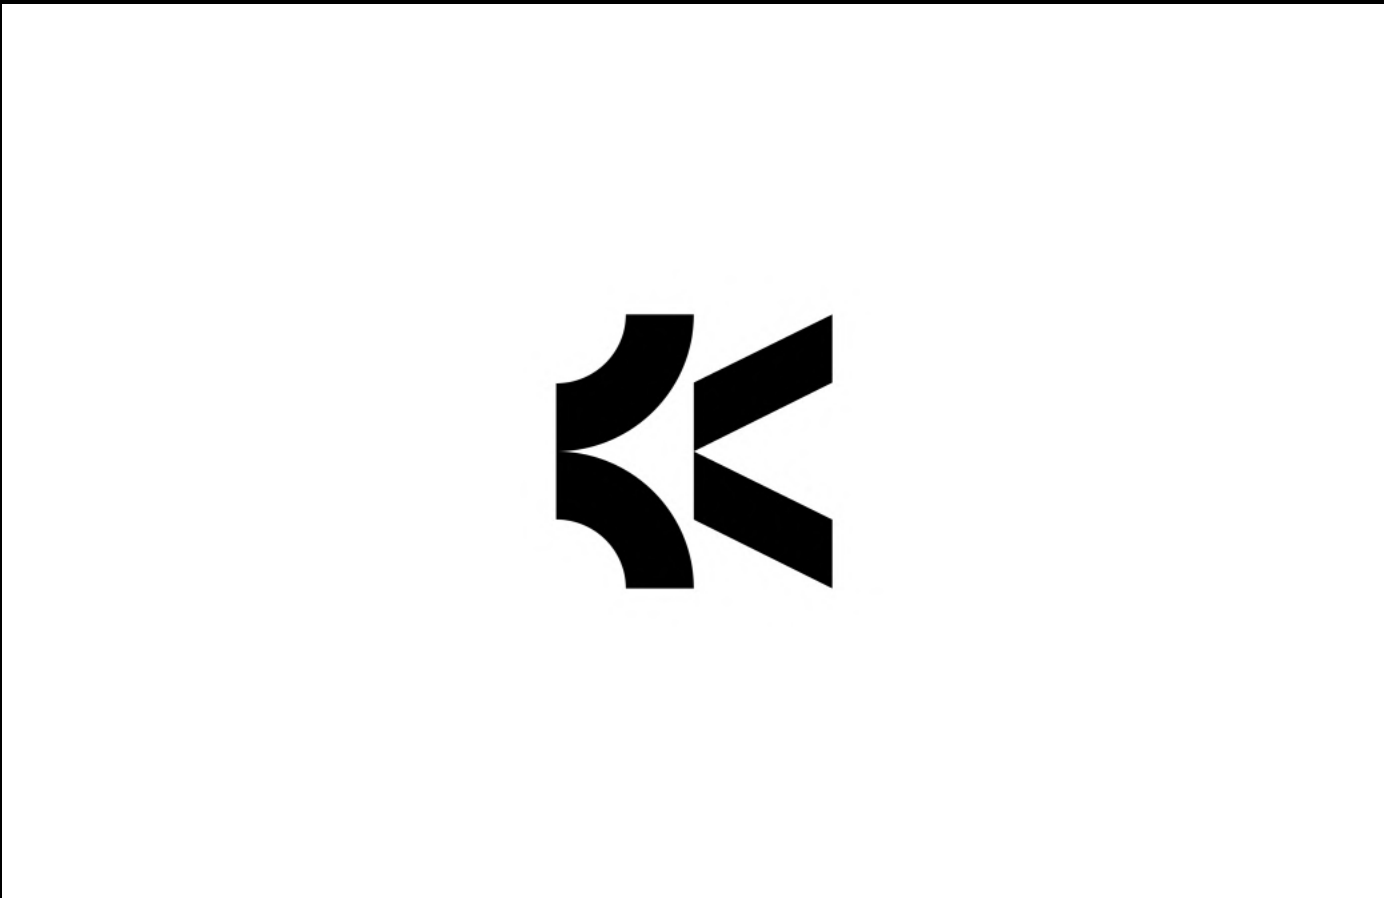

The Core Competitiveness

1 Move Anywhere. Framework
enables any chain to launch a
Move virtual machine.

2 Existing projects can frictionl
deploy on Movement by
integrating the MVMT Modu

3 Launch on Avalanche gives cross-
chain liquidity access to builders
and solves the cold-start problem

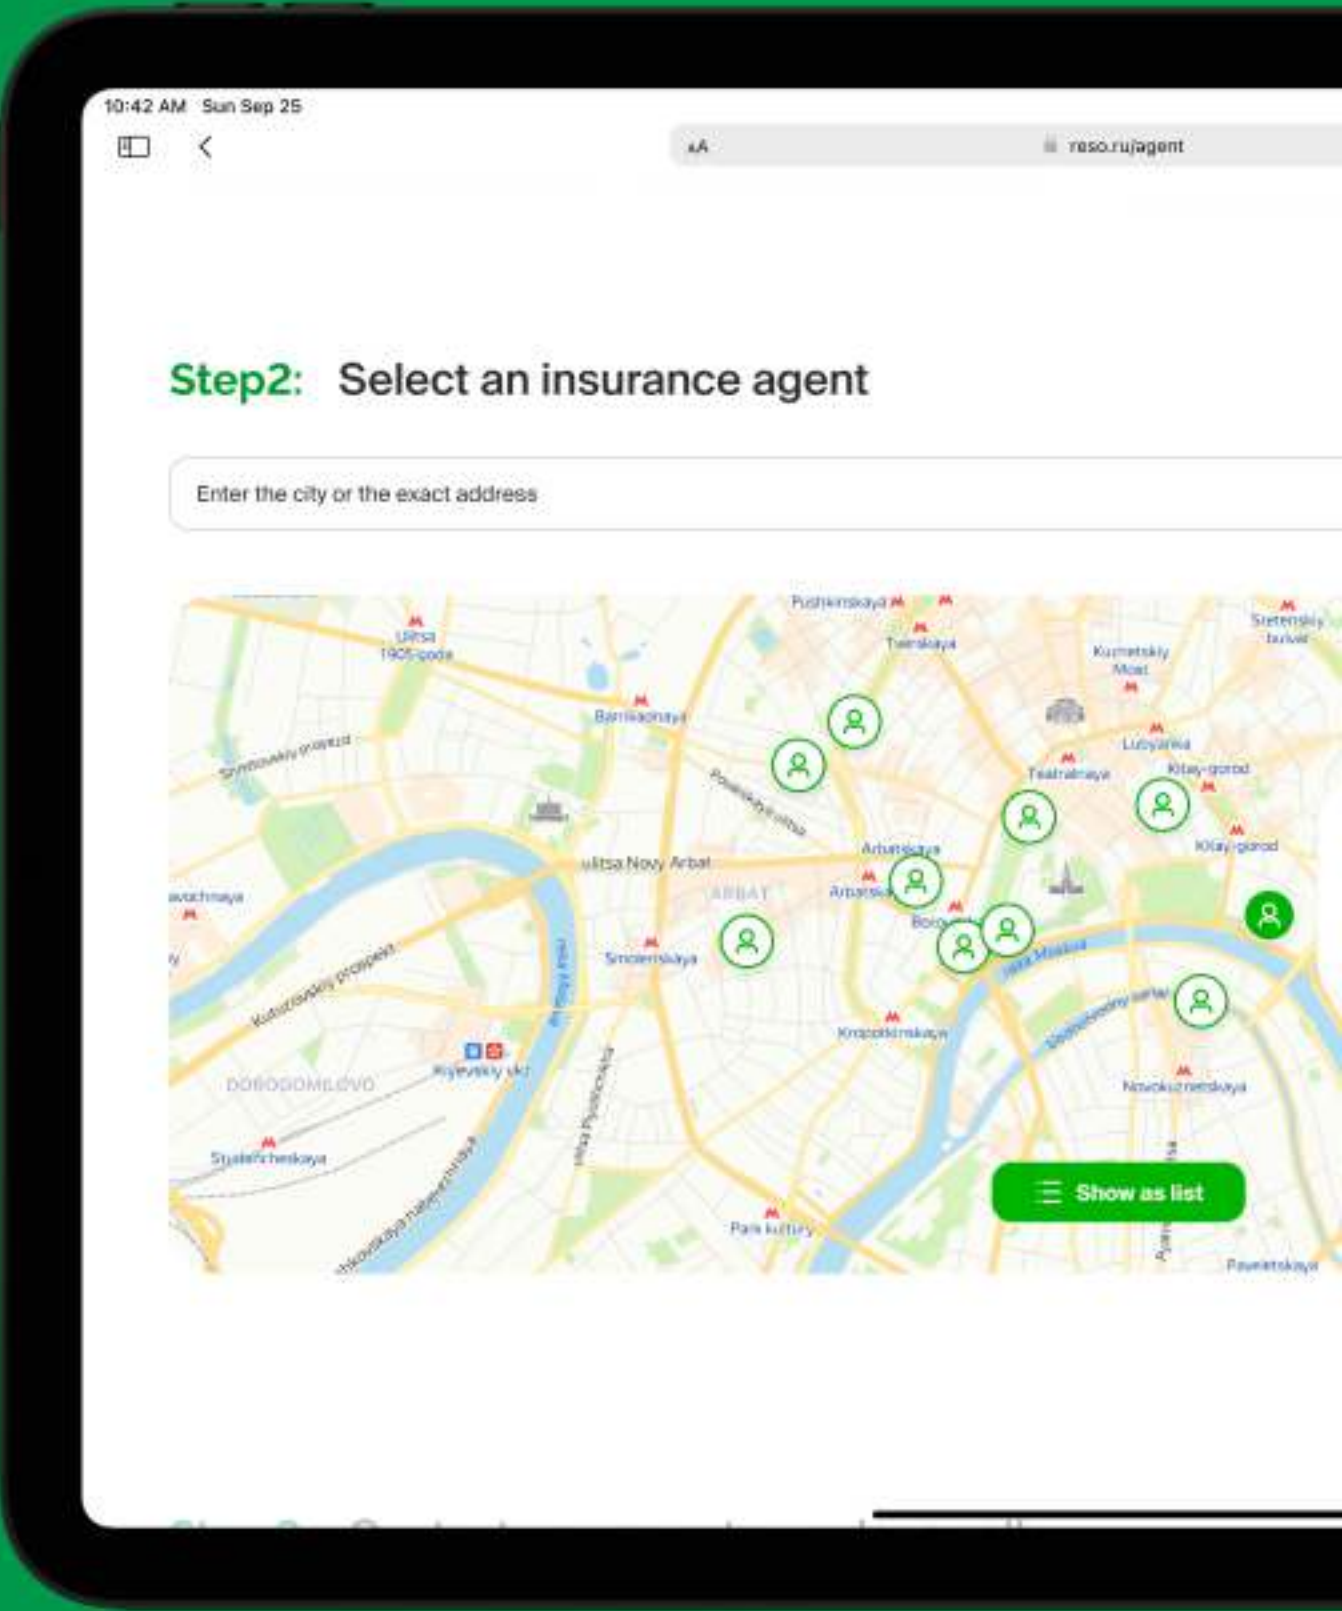

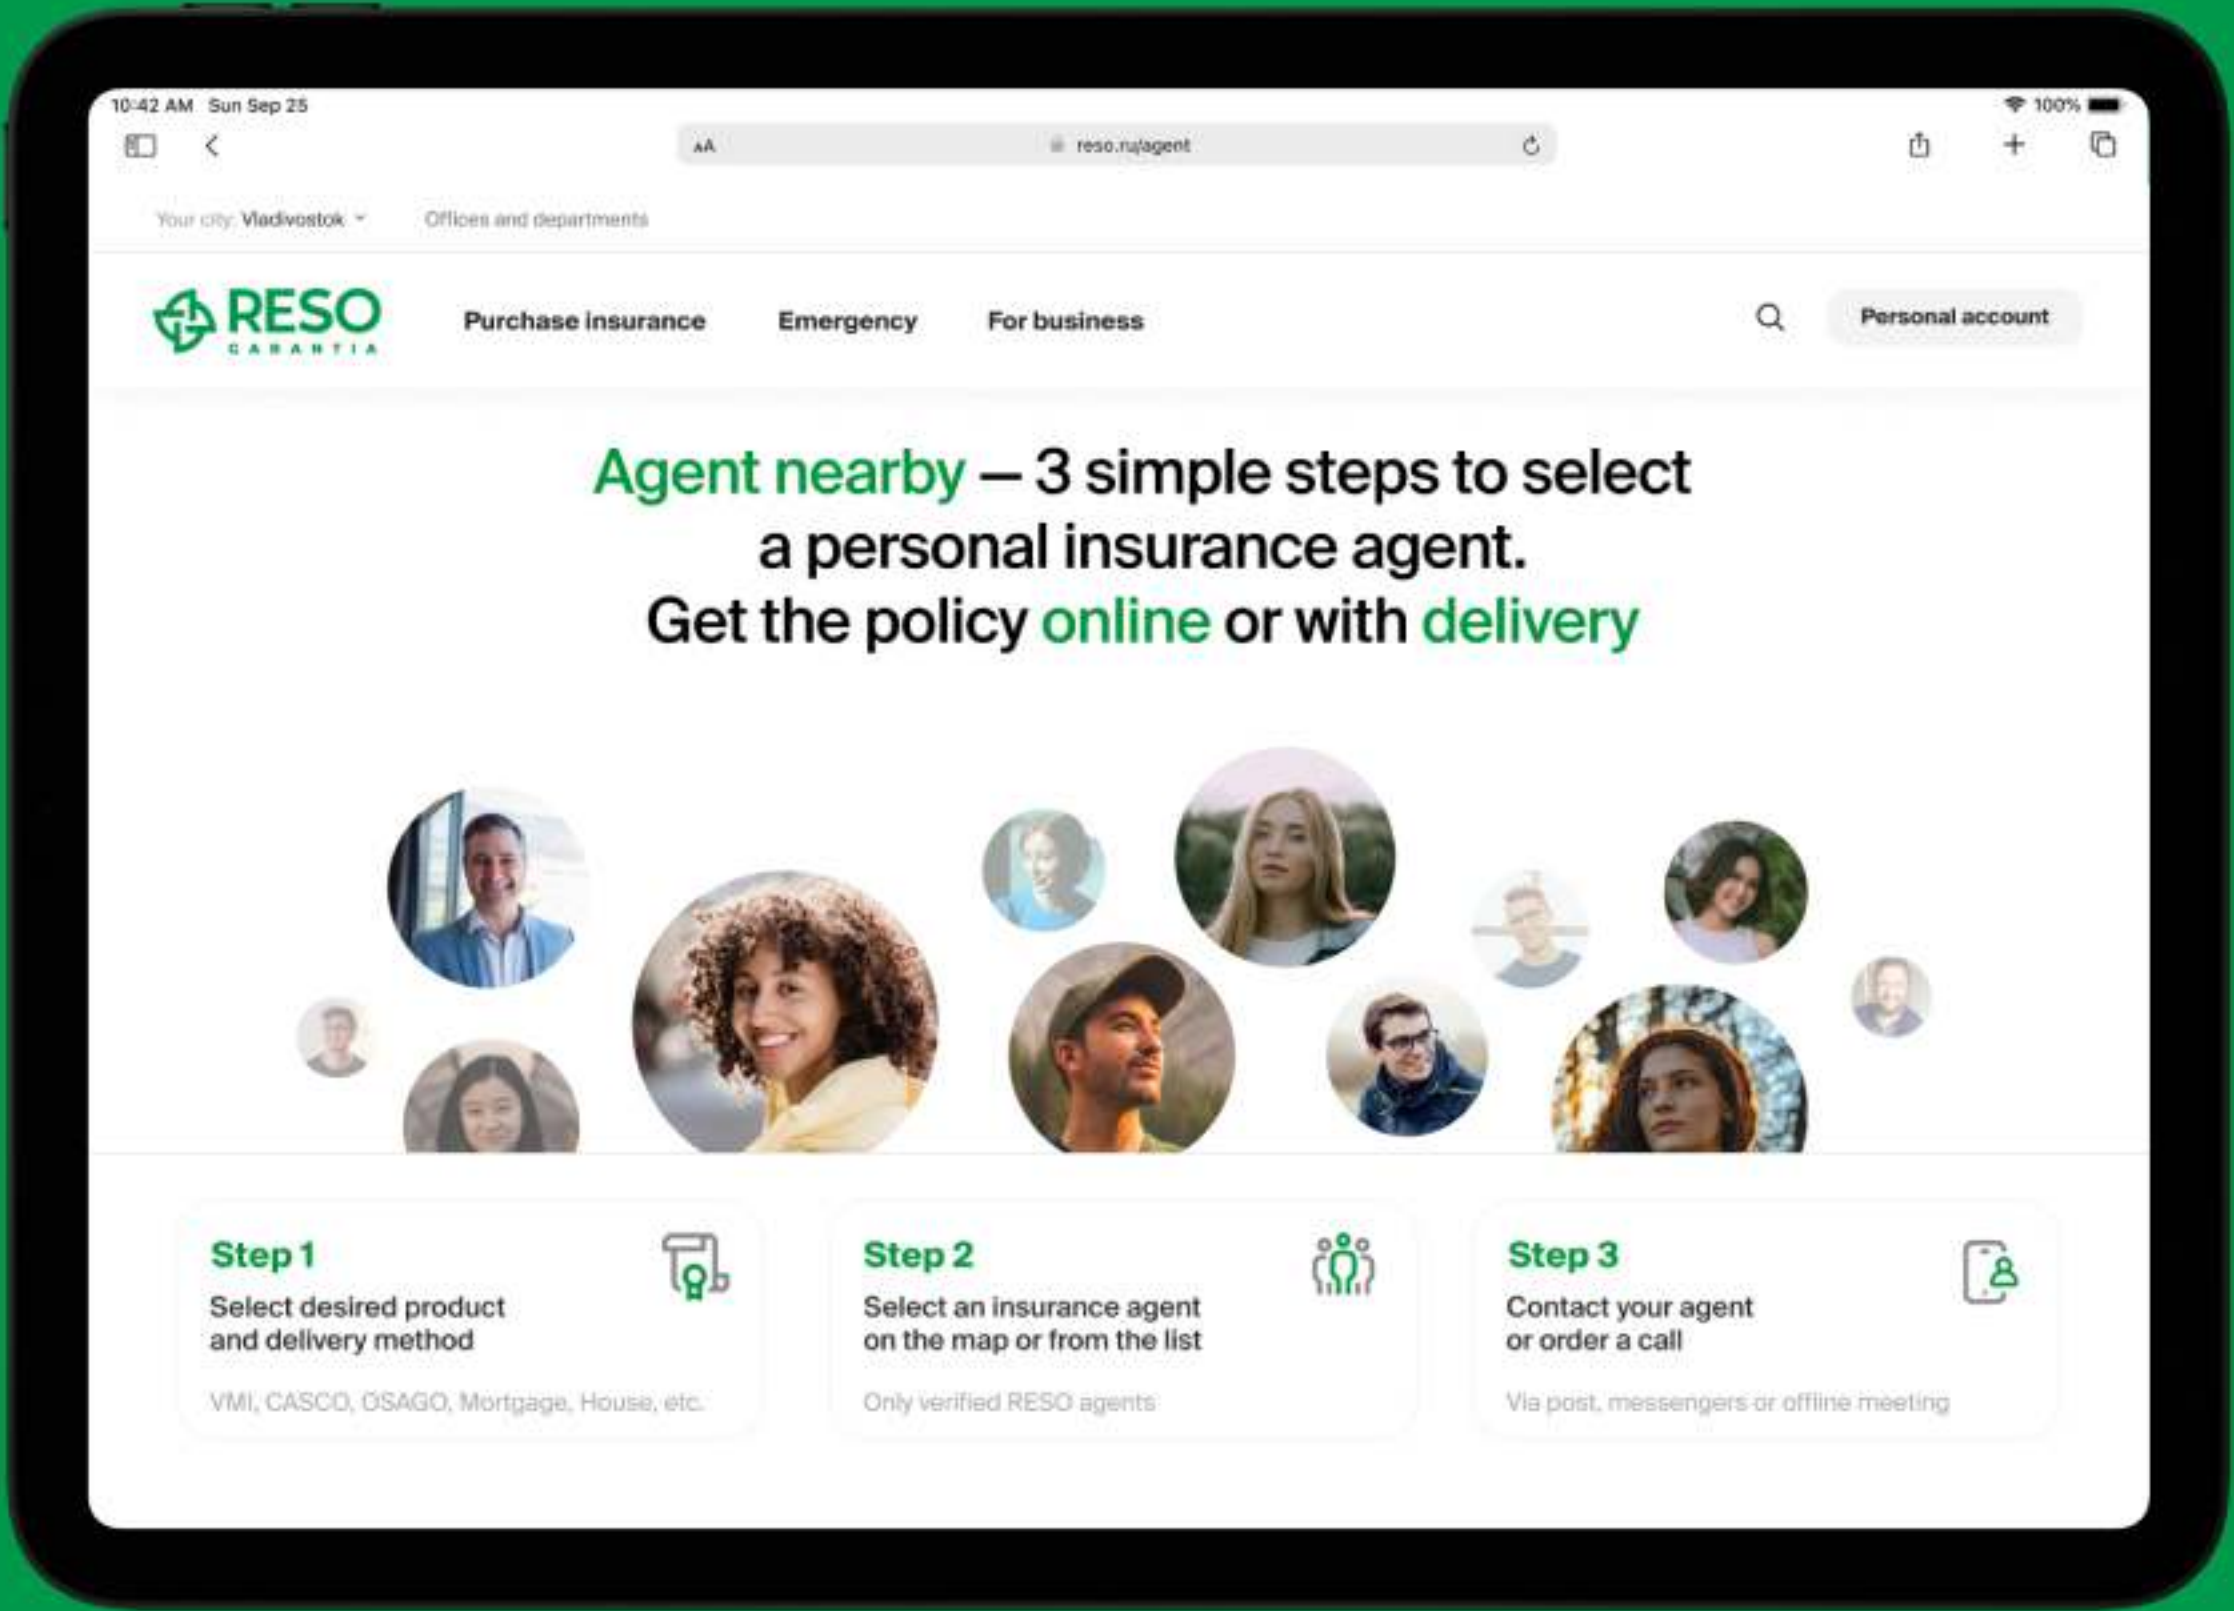

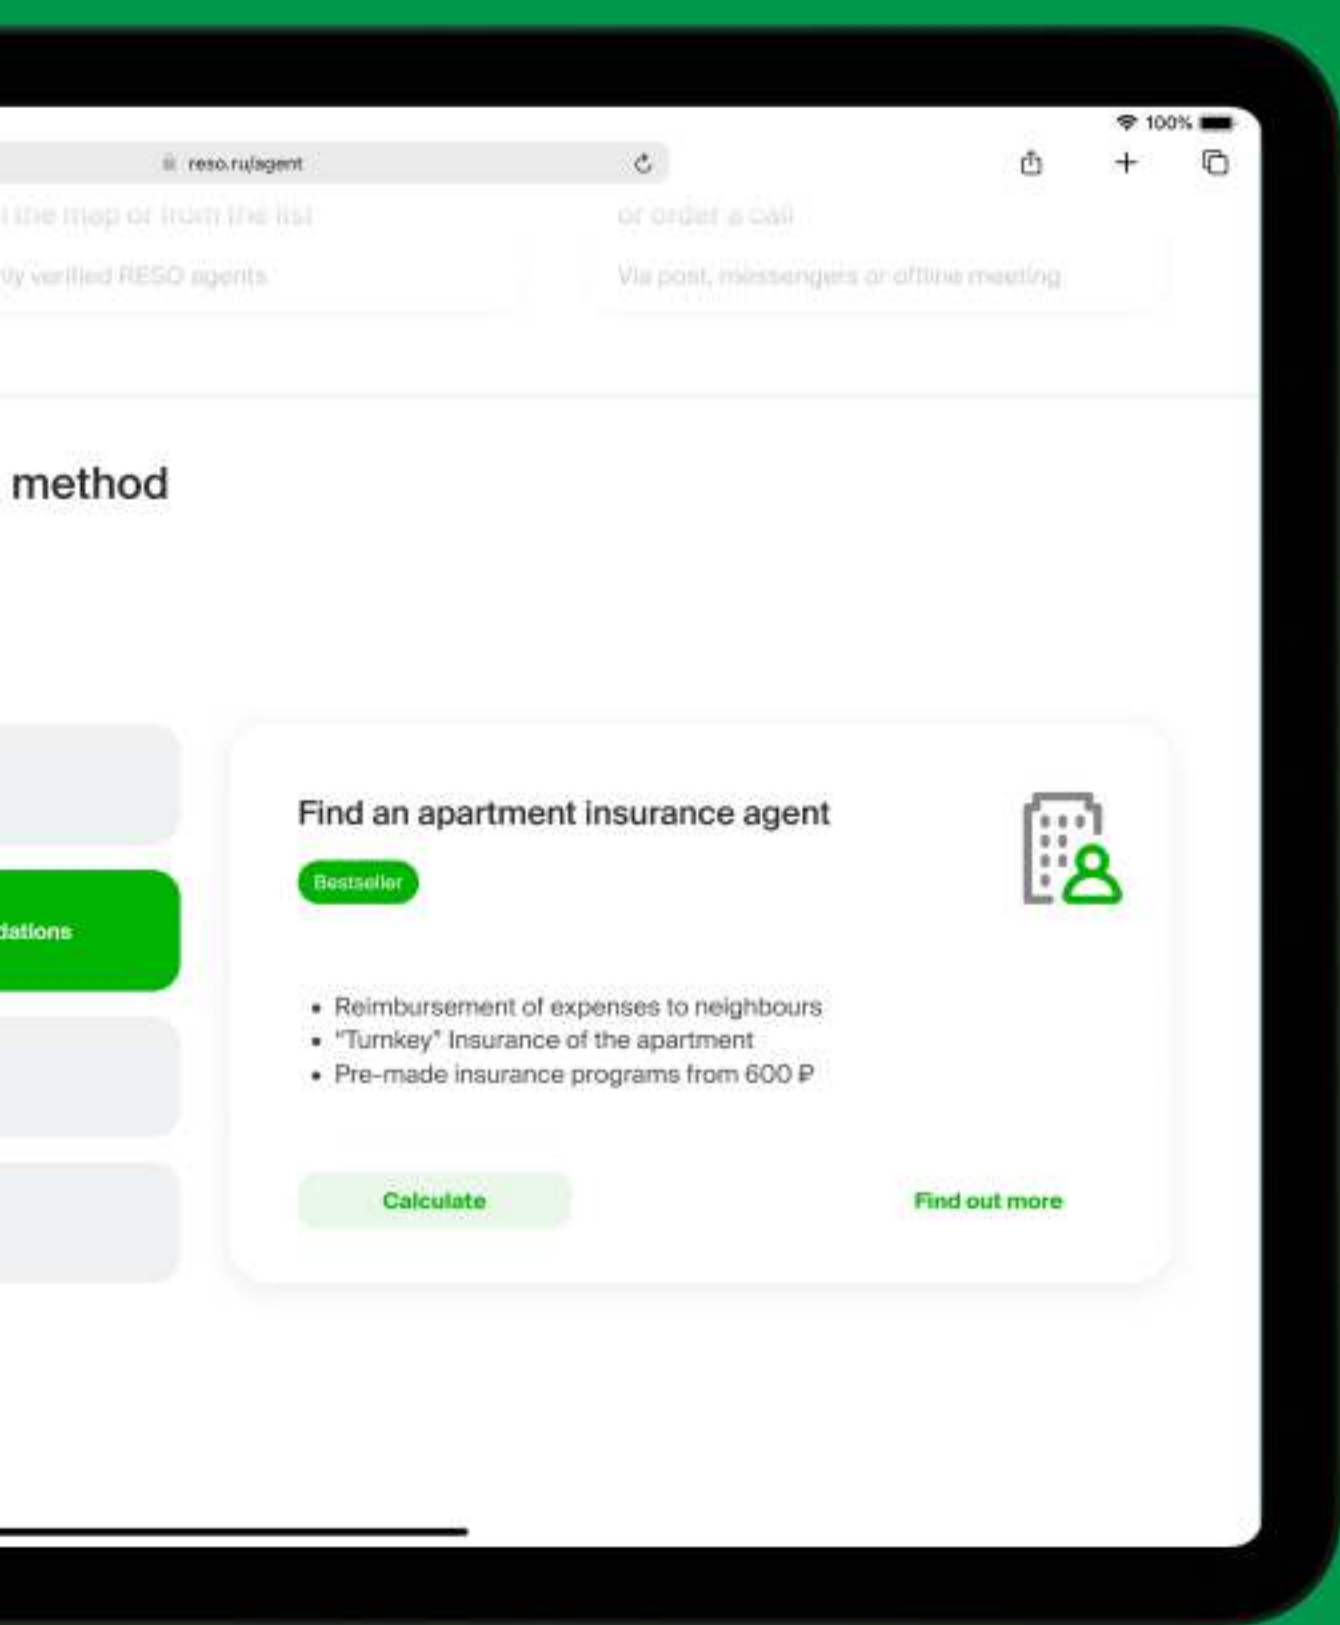

4 Near instant transaction
settlement and parallel
processing
